**Attachments:** WG: 8D-Reporte HD-Pumpen US07; HDP\_Späne2020693.pdf

Hello all;

Please find enclosed a additional information, regarding the last analys result for CR-pumps.

In the past Bosch had received via VW Non-responsive content removed a respectable numbers of claimed CR-pumps Typ CP4 for US-07.

Regarding the preanalyse at the VW plant and detailed analyses at the Bosch investigation point, we'd like to inform you about a important topic.

We received a few pumps with the fault description from your local VW-partner: "Metall partikel at the filter". In a few cases the partner use this as an indication, to verify a mechanical breakdown from the CR-pump.

To improve this action, we'd prefer additional to remove the measuring unit on the top of the pump. If it's possible to find partikel at this component, then we confirm the repair to exchange the whole fuel system. Please note;

To find some partcel or dust in the main filter box, can not be prevented. Usually you can find aluminium partikel, because the housing of the filter box ist made of aluminium splash.

Attached please find a service information from your AUDI-colleagues. They have already implemented this improvement.

Mit freundlichen Grüßen / Best regards

Hello [REDACTED]

FYI see pump damage. I have never seen so many before.

Best regards,

**Subject:** 3rd HPP failure USA Bln5

Hello Mr. [REDACTED]

I'm afraid there's bad news from the U.S.:

After 2 failures in the field (1x Q7, 1x Touareg) the 3rd HPP failure has now occurred in the EC endurance run:

Q7 AU716 90229 (Q7 BIN5 MJ10)

The vehicle comes from the first batch Bin5 MY09 and is already supposed to have an HPP with anti-wear package.

the vehicle was driven in mixed driving conditions, then converted to MY10 and used in the USA for cold tests and hot tests.

Mileage of vehicle/HPP: 144,075km (last change of fuel filter at 116,842 km, filter water separation at 131,631km)

Further action:

- HPP will be sent to [REDACTED] for analysis
- Fuel filter will be sealed and sent to [REDACTED] for analysis
- Fuel sample from the tank

Pictures of the MU and type label of the HPP

Based on the HPP data, can you make an initial statement as to the date of manufacture (did the HPP receive all AWP measures already)?

[REDACTED] do you have the data for the other two failures?

With best wishes
